1 Configuration Manual Introduction

This manual is intended to provide a comprehensive guide to installing and configuring the software application known as Python, Google Collab. This guide will walk you through the entire process from start to finish, covering topics such as system requirements, installation, configuration, and troubleshooting. Additionally, it will provide helpful tips to ensure that your installation and configuration are successful.

2 Hardware detail

Hardware is the physical components of a computer system, such as the central processing unit (CPU), memory, storage devices, network cards, motherboards, and other components. Below are the details used in this project

Figure 1: Hardware details

3 Software details

Below are some details for the software used in this project

- Programming Language { Python
- Cloud IDE { Google Collab
- Local IDE { Jupyter Notebook
